

Sneha Harish Kewat

Phone: +91 8779702381 E-mail: snehakewatw@gmail.com

Summary:

To achieve high career growth with continuous learning and apply professional skills to achieve desired goals that benefits the organization and individual development.

Internship Experience:

Data Scientist – InLignX Global Pvt. Ltd. (July 2025 – August 2025)

- Developed AI Chatbot that converts text-to-speech and vice versa, enables basic input output operations (txt, xlsx) as well as fetch information through API.
- Backend Development: Used Flask to create a web server and handle API requests.
- NLP & Command Parsing: Implemented regular expressions (re) to interpret and process user input.
- Speech Recognition & Synthesis: Integrated speech recognition for voice-to-text conversion and pyttsx3 for text-to-speech output.
- Web Automation: Utilized web browser library to automate opening web pages.
- External Data Retrieval: Fetched information from Wikipedia using APIs.
- Persistent Storage: Used file I/O operations to save and retrieve data in notes.txt and todo.txt.

Personal Projects:

- Adaptive Ride-Share Matching Algorithm - Designed a dynamic ride-matching system using Python, PostgreSQL, and REST APIs to improve real-time passenger-driver allocation.
- Real Time In-Transit Safety Monitoring System(Hindi) – Designed to detect risky/Dangerous situations in a shared mobility environment by performing ASR (Automated speech recognition) that is real time audio analysis using core Machine Learning, Wav2Vec2, Whisper, NLP for sentiment analysis and Python.
- Fine-Print Analysis - Created a text-processing utility with Python (NLP, Regex) to extract and evaluate contractual fine print for compliance and clarity.
- Study Tracking System - Developed a web-based study monitoring application using HTML, CSS, and Python to track scores, timers, and overall learning progress.

Technical Skills:

- Skills : Artificial Intelligence, Machine Learning, Data Science, Data Analyst, Neural Networks, CNN, NLP, DBMS, Deep Learning,LLMs & Generative AI, Data Structures, Web computing, Git, Docker
- Programming languages: Python, Django, Flask, Tensor, C, C++, Java, JavaScript, NodeJs, ExpressJs, ReactJs, MySQL, Tailwind CSS,
- Good Knowledge in Canva, MS PowerPoint, MS Word, MS Excel, Application of AI

Courses and Specializations:

- Java Concepts Course, October 2024

Academic Background:

Academic Qualification:

Qualification	Institution	Year	Result
BE Computer Science Engineering (Data Science) (pursuing)	Vidyavardhini's College of Engineering and Technology	2023 - till date	CGPA- 9.7
HSC (12 th)	Mother Mary's Junior College Arts Science and Commerce	2022	79%
SSC (10 th)	St Xavier's High School	2020	85%

Personal Details:

Date of Birth: November, 2005

Address: Mira-Bhayandar, Thane - 401107

Hobbies: Badminton, Reading, Football, Sprint, Essay

Language known: English, Marathi, Hindi
